### Nature Of Opinion

**Docket Number:** E-01461A-15-0363

**Docket Position:** Against

I am writing to express my concerns about the proposed mandatory demand charge that is once again being brought forward. As a customer who makes every effort to ensure I don't waste electricity, I am sickened by the sheer greed exhibited by Trico and the ACC by once again trying to take advantage of the consumer. A monthly increase in my service bill by even a few cents, just to line your pockets and no other reason, is beyond comprehension. I do not support this purposed increase and additional charge and you all should be ashamed!

**Docket Position:** Against

Trico Electric coop is seeking approval of mandatory demand charges on electric use which is obviously unfair as they're asking for additional money for electric when most people are off work and home with their families. I think as it is most home owners pay quite a bit for electric as it is and this is just another way of putting more financial burden on home owners at the expense of supposedly not for profit coop's. This proposal needs to be rejected by the commission.

Reject mandatory Demand Charges - these charges are patently unfair and discourage the use of solar power, which in turn damages the environment.

Please reject mandatory Demand Charges. I understand the impact of solar power on the cost of running the electrical grid, and I don't mind paying an increased access charge, but a demand charge for use of electricity that is negated by Net Billing is unjustified. <http://states.aarp.org/saving-on-the-electric-bill-will-get-harder-under-uns-proposal/>
